Standards for Responsible Digital Financial Services Working Group Meeting: Agent Management

15 March 2022
AGENDA

10:00 to 10:10 INTRODUCTIONS

10:10 to 10:15 CONTEXT: overview of Cerise+SPTF’s work on standards

10:15 to 10:30 DRAFT AGENT MANAGEMENT STANDARDS: review ideas so far

10:30 to 10:45 EXPERT REFLECTIONS: a) FINCA; b) MSC; c) M-CRIL

10:45 to 11:25 DISCUSSION

11:25 to 11:30 NEXT STEPS and conclusion
By the end of this session, you will have ...

- Reviewed what the draft standards for responsible agent management say
- Contributed your insights into how we can refine them
- Participated in debates where our ideas lack consensus
- Reflected on the when/where/how of our next meetings
OUR WORK ON STANDARDS (1 of 2)
The Universal Standards for Social and Environmental Performance Management

A complete guide of best practices to help financial service providers (FSPs) put clients and the environment at the center of all decisions and align their policies and procedures with responsible business practices.
OUR WORK ON STANDARDS (2 of 2)
Standards for Responsible Digital Financial Services

Why?
• Clarifies what “good” practice means
• Enhances transparency
• Encourages good practices to grow
• Proposes concrete solutions to the risks we observe
• Enables stakeholders to distinguish between providers with a desire to create value for clients versus those focused solely on profits
• Facilitates partnerships with responsible providers

How?
• Review of existing resources: research, articles, blogs, codes of conduct
• Expert interviews: ~40 so far
• Harmonization with existing principles and standards: GSMA, BTCA, IFC, GOGLA, G20 High-Level Principles for Digital Financial Inclusion
• DFS Working Group: open to all, provides a forum to share information and debate
Standards for Responsible Digital Financial Services:

**Working Group Meeting**

**Existing DFS frameworks**

**Assessment/Certification**
- GSMA Mobile Money Certification
- Smart Campaign Digital Credit Standards *(draft – published 2019 and then Smart closed)*
- GOGLA Self-Assessment

**Standards**
- BTCA Guidelines for Responsible Digital Payments
- IFC Guidelines for Responsible Investing in DFS
- G20 High-Level Principles for Digital Financial Inclusion

**High-level principles**

**Audience**
- FSPs
- MNOs
- Investors
- Regulators

**Digital payments**
- Digital credit
- PayGo

**Existing DFS frameworks**
Integrating the DFS Standards and the Universal Standards for SEPM - Where we are now; where we are going

The USSEPM are well defined – keep doing this

Some solutions documented – majority not yet identified

Full integration: one manual and one assessment tool
## What is already in the Universal Standards for SEPM related to agent management?

Reminder: the standards say the what, but not the how

**What (universal)**

**Example 1**: Before launching an agent network, create a strategy for managing agent liquidity in each market, at minimum for urban versus rural markets

**Example 2**: Build agent buy-in to the mission and vision of the organization through continuous engagement

**How (varies by context)**

- Leverage technology in your solutions.
- Study in advance the liquidity in various businesses and choose the ones that have sufficient cash to be agents.
- Be aware of seasonal increases in demand.

- Share success stories via a newsletter.
- Offer recognition awards.
- Post examples of good practice on Facebook.
Agent management: ideas for management practices so far (1 of 3)

1. Before launching an agent network, create a strategy for managing agent liquidity in each market, at minimum for urban versus rural markets.

2. Raise awareness among customers that they may encounter insufficient liquidity among agents and the implications of that on how they plan or manage their financial lives.

3. Improve the IT system as needed to enable remote monitoring of agent activity.

4. Measure the level of activity for agents on a regular basis. This includes not only what types of transactions, how frequently, and in what amounts, but also which platform/app they use to conduct each transaction.

5. Monitor which agents have high cash outs and take action to ensure liquidity in places where there is a large volume of cashing in and out.

6. When a new digital product launches:
   a. Select agents for the pilot test that are among the most active in the network
   b. Establish targets, incentives
   c. Launch an awareness raising program
   d. Provide more than one round of training for agents on the new product
   e. Track data on how many agents are aware of or using the new product.

7. Use data to monitor early warning sights of agent distress, rather than waiting for actual default or other bad behavior by agents.
Agent management:
ideas for management practices so far (2 of 3)

9. Invest in ongoing agent training and evaluation. (NB: Agent turnover can be high, and some agents are better than others.)
10. Provide refresher trainings to agents on important topics. Training them once on a key topic is not enough.
11. Train agents on how to avoid fraud.
12. Build agent buy-in to the mission and vision of the organization through continuous engagement.
13. Have a business plan that allows for agents to make money.
14. Offer agents a good base salary.
15. Invest in experiential learning. Have your staff who are going to be responsible for agent management go into the field and observe how agents work.
16. Make it possible for customers to use agents with their same gender.
17. Analyze customer complaints data for insights on agent behavior.
18. Tell customers that if agents ask you to pay fees that you do not understand, the FSP wants to know about it and here is the channel to use to report this.
Agent management: ideas for management practices so far (3 of 3)

19. Agents should have to enter data on all requested transactions, even ones they cannot do due to insufficient liquidity. The FSP should get this information on a daily basis, so they see how many transactions happened and how many transactions were requested but not processed due to insufficient liquidity.

20. Define a theory of change for agents. What does the FSP provide (e.g., trainings, incentives, oversight) and how do the agents perform as a result?

21. Have a probationary period with agents to test their performance before co-branding with them.
What do you think? Expert commenters will start off the discussion.
